Project Design Phase
Proposed Solution Template

Date	22.09.2026
Team ID	SWTID-2026-7438
Project Name	AI FAQ Assistant
Maximum Marks	2 Marks

Proposed Solution Template:

Project team shall fill the following information in the proposed solution template.

S.No.	Parameter	Description
1.	Problem Statement (Problem to be solved)	Users often face difficulties in finding quick and accurate answers to frequently asked questions. Manual support takes more time and may lead to repeated queries. The proposed AI FAQ Assistant aims to solve this problem by providing instant answers to common user questions.
2.	Idea / Solution description	The AI FAQ Assistant is a smart chatbot-based system that understands user questions and provides relevant answers from a predefined FAQ knowledge base. It helps users get information quickly without depending on manual support.
3.	Novelty / Uniqueness	The system provides instant and interactive responses using AI-based question understanding. It can handle frequently asked questions, reduce repeated support requests, and provide answers in a simple and user-friendly manner.
4.	Social Impact / Customer Satisfaction	The AI FAQ Assistant improves customer satisfaction by providing quick and consistent responses. It saves users' time, reduces waiting time, and makes information easily accessible. It can also reduce the workload of support staff.
5.	Business Model (Revenue Model)	The system can be provided as a subscription-based service for organizations. Revenue can be generated through monthly or yearly plans, customization charges, premium features, and maintenance or support services.
6.	Scalability of the Solution	The solution can be scaled by adding more FAQs, supporting multiple departments and languages, and integrating it with websites, mobile applications, and customer-support platforms. The knowledge base can also be updated as new questions and information are added.

AI FAQ Assistant – Proposed Solution

The AI FAQ Assistant is a conversational application that accepts natural-language questions and provides relevant answers from a structured FAQ knowledge base. It can be used by students, customers, staff, and website visitors.
